

BlackBook (social network)

BlackBook was an anonymous Darknet social network.^[1] It is known as "the Facebook of Tor."^[2]

It is not known how popular BlackBook was. The site was hacked and has not recovered.^[3] The site was hacked and disabled multiple times in 2018.^[4]

It had features similar to those of Facebook. It had chat, pictures, friend requests, status updates, and groups features. Even the landing page of Facebook was copied. It competed with [Facebook Onion](#) and Torbook.
